Vision impairment: after diagnosis

Vision impairment: after diagnosis

Author: Raising Children Network
Language: English
Type of resource: Video
About this resource: In this video, parents and child health specialists discuss the importance of early intervention following a diagnosis. Child health specialists outline how early intervention can support development in children who have low vision or are blind. They also emphasise the importance of stimulating a child's other senses and supporting children who will become braille readers. Parents discuss how early intervention following diagnosis helped their child.
